An act to amend Section 19596.1 of the Business and Professions Code, relating to horse racing.

LEGISLATIVE COUNSEL'S DIGEST

SB 2035, as amended, Karnette. Horse racing.

Under existing law, the California Horse Racing Board is authorized to permit a harness or quarter horse association conducting a race meeting to accept wagers on the results of out-of-state, out-of-country, and sometimes other harness or quarter horse races, if specified conditions are met. One of these ~~condition~~ *conditions* is that, the association imports no more than 6 races on live racing days. Another is that, subject to specified conditions and limitations, if only one breed is being raced on a given live racing day, the live racing association may import additional races that would otherwise be simulcast by the association which is not racing.

This bill would allow an association ~~authorized to import races pursuant to this law~~ *permitted to import up to 6 races pursuant to the applicable provision above*, if it imports fewer than the ~~maximum number of harness or quarter horse~~ 6 races authorized for a given night, to ~~later~~ import races equal in number to those foregone ~~on a different night of racing~~, *provided that no more than 2 races could be reserved or added on single night of racing*. This bill would provide that the total number of races imported under these provisions by an association in a calendar year may not exceed the total number of imported races authorized by the formulas in existing law.
